Auto Business News - 08 June 2018

Spireon, the vehicle intelligence company, has signed a contract with Ford Commercial Solution for its FleetLocate fleet management solution.

The solution is to access data through Ford's open-platform Transportation Mobility Cloud.

Spireon customers who own Ford vehicles will gain faster, easier on-boarding to the FleetLocate platform, without any additional hardware costs or installation. Extensive Ford-specific vehicle data will be offered through the FleetLocate web and mobile applications to improve fleet management for customers. ...
