

Spireon Wins Award Featured

Spireon announced its NSpire 3.0 IoT platform was awarded Silver for New Product or Service of the Year in the 16th annual American Business Awards.

Honored in the software subcategory, NSpire 3.0 powers Spireon's FleetLocate, GoldStar and Kahu web and mobile apps. It supports nearly 4 million active subscribers and processes more than 10 billion data events from connected vehicles and drivers each year.

With advanced analytics and machine learning capabilities, NSpire delivers actionable insights that increase productivity and profits while protecting assets for auto dealers, lenders, transportation companies, rental car companies and consumers.

NSpire 3.0 launched in 2017, adding significant enhancements to the platform that dramatically increased scalability, type and volume of data collected, interoperability and mobility support.
